

VISUAL ARTS TECHNOLOGY

Visual Arts Technology at Morley Senior High School includes the studies of Digital Arts, Art, Media, Music and Performing Arts (Dance and Drama). The source of inspiration for students studying in the Visual Arts Technology Faculty is their visual environment.

Morley Senior High School provides students with the opportunity to participate in its specialist programmer, Digital Arts. Morley Senior High School is the only secondary school in Western Australia offering specialist programs in Multi Media and Broadcasting (Television). The Digital Arts courses include; Drawing for Design, Digital Photography, Graphic Design, Multimedia Design, Television, Audio Visual Design and the role of media in society. All secondary students have the opportunity to participate in this unique specialist program.

The Art program activities include drawing and designing, studio projects in painting, print making, ceramics, and sculpture, and are used to explore the natural and man-made environment.

Drama and Theatre is designed to develop basic theatre skills and knowledge of the theatre art form. Subject matter includes the origins and development of theatre, theatre movement and voice, conflict resolution in drama, theatre characterization, and extending the sources for theatrical improvisation to include texts, storytelling, play making, and simulation. Dance provides students with the possibility of entry to the Western Australian Academy of Performing Arts, as well as career possibilities such as Arts/ Dance Administration, Dance Therapy, Entertainment, Acting, Stage Craft/ Make-up Artist, Costuming, Teaching or Set Design.
